

TOOL SHEET

CANVA

Canva is a free website that gives you access to online tools so that you can create your own graphic designs, whether for leisure or for professional purposes.

Description

Canva offers you a collection of 8,000 free templates for 100 types of multi-purpose design. You can use them to create personal, educational or professional visual designs for brochures, stationery and many other types of projects.

Use

Once you have selected your composition, you will have access to a main screen where, on the left, there is a column with a menu of options and elements that you can add, and on the right, you will have your creation that you can modify.

- All you have to do is double-click on the text to change it, click on the graphics to select them and modify them as you wish, or click directly to delete them.
- Then all you have to do is choose elements from the left-hand column and drag them onto your design using its drag-and-drop system, which literally means drag and drop.

Testimony

Click on the TV on the right to discover a video testimony:

→ Access

Download the application in the App Store (on an Apple device) or in the Google Play Store (on an Android device)
Or go to the website:
