GOOGLE ARTS & CULTURE

Google Arts & Culture is an online platform of cultural archives which take the form of images, videos, games and cultural experiences.

Description

Google Arts & Culture partners with museums, cultural centers and universities around the world to offer a wide range of paintings, museums and cultural objects on the platform. Presented in a playful and immersive way, the content of the platform is an innovative and interesting support for teachers and students, but also artists and citizens interested in discovering more about art.

Use

You can explore Google Arts & Culture via :

- The "Explore" section which will offer you a selection of popular subjects, collections, themes to explore.
- The "Places" category, in which you can discover countries and places, sometimes with virtual visits to historical sites.
- The "Art Movements" category which puts images and stories forward of artistic movements from the Renaissance to Street Art.
- The "Experiences" category where you will also discover immersive experiences. There are experimental journeys through themes such as climate change, music, manga ... You will also find games such as visual crosswords or 3D pottery sculpture.
