

TOOL SHEET

VIDEO CV

The video CV is a tool that will allow you to make your profile more accessible and attractive, by presenting your profile in a short video format. For example, you can talk about your background, your experience, your training or your skills, to make the recruiter want to know more about you.

Description

This tool will allow you to present yourself in an original way, to highlight your personality, to prove your language and digital skills. The aim is to enhance your applications by presenting your personality, thanks to the design of a good quality video.

Use

For your video editing, you can use various softwares and/or applications. We suggest you to install and test the free application VivaVideo - Video editing. And once the video CV is done, think about broadcasting it!

Testimony

Click on the TV on the right to discover a video testimony:

→ Access

To make a video CV, there is no single website, but rather there are many videos and examples on the internet, on YouTube. After seeing an example on the internet, you can follow the instructions for writing a script (what you are going to talk about), filming yourself and finally editing your video CV.
