

# TOOL SHEET

## KAHOOT!

Kahoot! is an online platform for learning in a playful way. The "Kahoots" are multiple choice quizzes that allow several users to play simultaneously.

### Description

You are a teacher and you want to involve your students in a fun way? You are a student and you want to spice up your presentations to the class? You are at work and you want to involve your colleagues? Or you simply want to play with your friends and family? Then Kahoot is for you!

### Use

Start by creating an account. Then create your questions by choosing the length of time they will be displayed, adding images etc. You can also use quizzes already created by others on certain themes.

If you want to take part in a quiz, it's very simple: just enter the pin code that the quiz creator has shared with you. Kahoot! can be used to review students' knowledge or to change traditional classroom activities. Kahoot makes learning a game for students and not a constraint.
