Description of the tool

Talent Explorer is a board game that can be played by 2 to 5 players. This game helps to change the way we look at ourselves and others by making us realise that everyone has talents and can use them to take action. It aims to work on the empowerment of people: based on an approach to the innate talents present in each of us, the game aims to strengthen the ability of each individual to act, thanks to the reaffirmation and recognition of his or her own abilities and strengths.

The aim is to observe and appropriate these talents in a constructive way, so that they can develop this resource on a daily basis. Each individual will then be able to move forward, to make a difference by taking the most constructive actions and decisions for themselves.

Use of the tool

On the [Change Of View](#) website you will find a pedagogical guide on the concept of Talents, a methodological guide, the rules of the game, as well as the board and all the cards you can print to start playing!
