## TOO GOOD TO GO

Too Good To Go is an app that connects allows individuals to buy unsold food from businesses near them for small prices.

### Description

In Europe, 88 million tons of food are thrown away every year. Isn't that such a waste ?

With Too Good To Go, you can connect with local businesses and restaurants to rescue unsold "Suprise Bags" for reduced prices. By buying them, you can discover delicious foods for cheap while reducing food waste and supporting local businesses.

### Use

Using geolocation, the Too Good to Go app allows you to discover shops and restaurants around you which have unsold items. You'll be able to see how far away they are, the price of the Suprise Bags and their availability. Some of the bags are a complete suprise, while others give you a more precise description of their composition.

When selecting a business, you'll see the real cost of the bags and their price on To Good To Go.

Select your bag and pay directly on the app. You can then pick it up directly at the shop.

Enjoy !
